

# PERSONALIZED SKIN CARE

Hello Client :)

Microneedling at home is the new thing to getting the product to penetrate into the skin, up to 80% more than applying to the skin topically. Take advantage of the promotion by purchasing the product now, and we can apply the credit you (\$40) on your next facial. Supply is limited, if you come in on your next facial, we may not have it anymore. If you buy today, we will save it for you on your next visit.

## DERMAROLLER

- What is a Microneedle Roller?
- - A microneedle roller, also known as a derma roller, is a skincare tool covered in tiny, fine needles. It's used to create micro-injuries in the skin's surface, stimulating collagen production and improving overall skin texture.
- Ask your Esthetician when you come for your facial.

#### **TACKLE SKIN CONCERNS:**

- MICRONEEDLE ROLLERS CAN ALSO HELP ADDRESS VARIOUS SKIN CONCERNS SUCH AS ACNE SCARS, ENLARGED PORES, AND UNEVEN SKIN TONE BY PROMOTING HEALTHY SKIN CELL TURNOVER.

#### **Microneedling**

Micro- needling is a cosmetic procedure. It involves pricking the skin with tiny, sterilized needles. The small wounds cause your body to make more collagen and elastin, which heal your skin and help you look younger.

#### **At Home Care**

*At-Home Convenience:*

*- Enjoy the convenience of using a microneedle roller at home as part of your regular skincare routine. It's a cost-effective way to maintain healthy, radiant skin.*

Remember, it's essential to follow proper sterilization and usage guidelines when incorporating a microneedle roller into your skincare regimen. If you have specific questions or would like a demonstration, our clinic's experts are here to help!

Safe and Non-Invasive:

- Microneedle rollers are safe when used correctly and offer a non-invasive way to boost your skincare routine without the need for surgery or more intensive procedures.
